# Digital communication for modern spaces.

We help organizations inform, guide, engage and inspire people through professional screen-based communication.

# Scalable. Reliable. Built for high-impact environments.

From public spaces and transport hubs  
to venues, events and international visitor experiences.

# What it can be used for

Corporate  
Communication

Retail

Finance

Education

Hospitality &  
Gastronomy

Healthcare

Entertainment

Trade & Industry

Public Institutions

Transport

Religious  
Institutions

# Corporate Communication

Connecting employees, visitors, and teams with clear, real-time internal communication.

# Corporate Communication

- Share internal news, company updates, and announcements across all locations.
- Welcome visitors, partners, and employees with professional lobby and room screens.
- Display live dashboards, KPIs, meeting room information, and safety messages.
- Improve employee engagement with targeted content for teams and departments.
- Manage all screens centrally, from headquarters to regional offices.

# Retail

Turning every screen into a dynamic sales and brand communication channel.

# Retail

- Promote products, offers, and campaigns directly at the point of sale.
- Update prices, promotions, and product information in real time.
- Guide customers through stores with digital wayfinding and category displays.
- Increase attention with dynamic visuals, videos, and branded content.
- Adapt content by location, time of day, store type, or audience.

# Finance

Creating modern, secure, and informative customer experiences in financial environments.

# Finance

- Display live financial data such as exchange rates, market updates, or branch information.
- Inform customers about services, products, and advisory topics.
- Support queue management with clear service and waiting-time information.
- Create a modern and trustworthy customer experience in branches.
- Control content securely across multiple locations and departments.

# Education

Keeping students, staff, and visitors informed, guided, and connected across campus.

# Education

- Share campus news, event schedules, class changes, and student information.
- Guide students, visitors, and staff with digital wayfinding.
- Display emergency alerts and safety instructions quickly across the campus.
- Support communication between administration, faculties, and departments.
- Use screens in classrooms, cafeterias, libraries, entrances, and public areas.

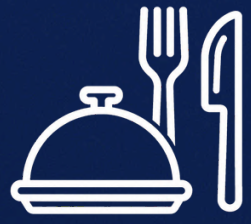

# Hospitality & Gastronomy

Enhancing guest experiences with timely information, digital menus, and branded communication.

# Hospitality & Gastronomy

- Welcome guests with personalized messages, branded lobby and room screens.
- Display digital menus, daily specials, prices, and promotions.
- Inform guests about events, meeting rooms, hotel services, and local attractions.
- Update content quickly for breakfast, lunch, dinner, or seasonal offers.
- Create a premium guest experience in hotels, restaurants, cafés, and resorts.

# Healthcare

Guiding patients and visitors while improving communication in sensitive healthcare environments.

# Healthcare

- Guide patients and visitors through hospitals, clinics, and medical centers.
- Display waiting room information, service updates, and health education content.
- Communicate safety instructions, hygiene rules, and emergency alerts.
- Reduce perceived waiting times with useful and reassuring information.
- Manage content for different departments, floors, and medical areas centrally.

# Entertainment

Creating engaging visitor journeys with live information, guidance, and immersive digital experiences.

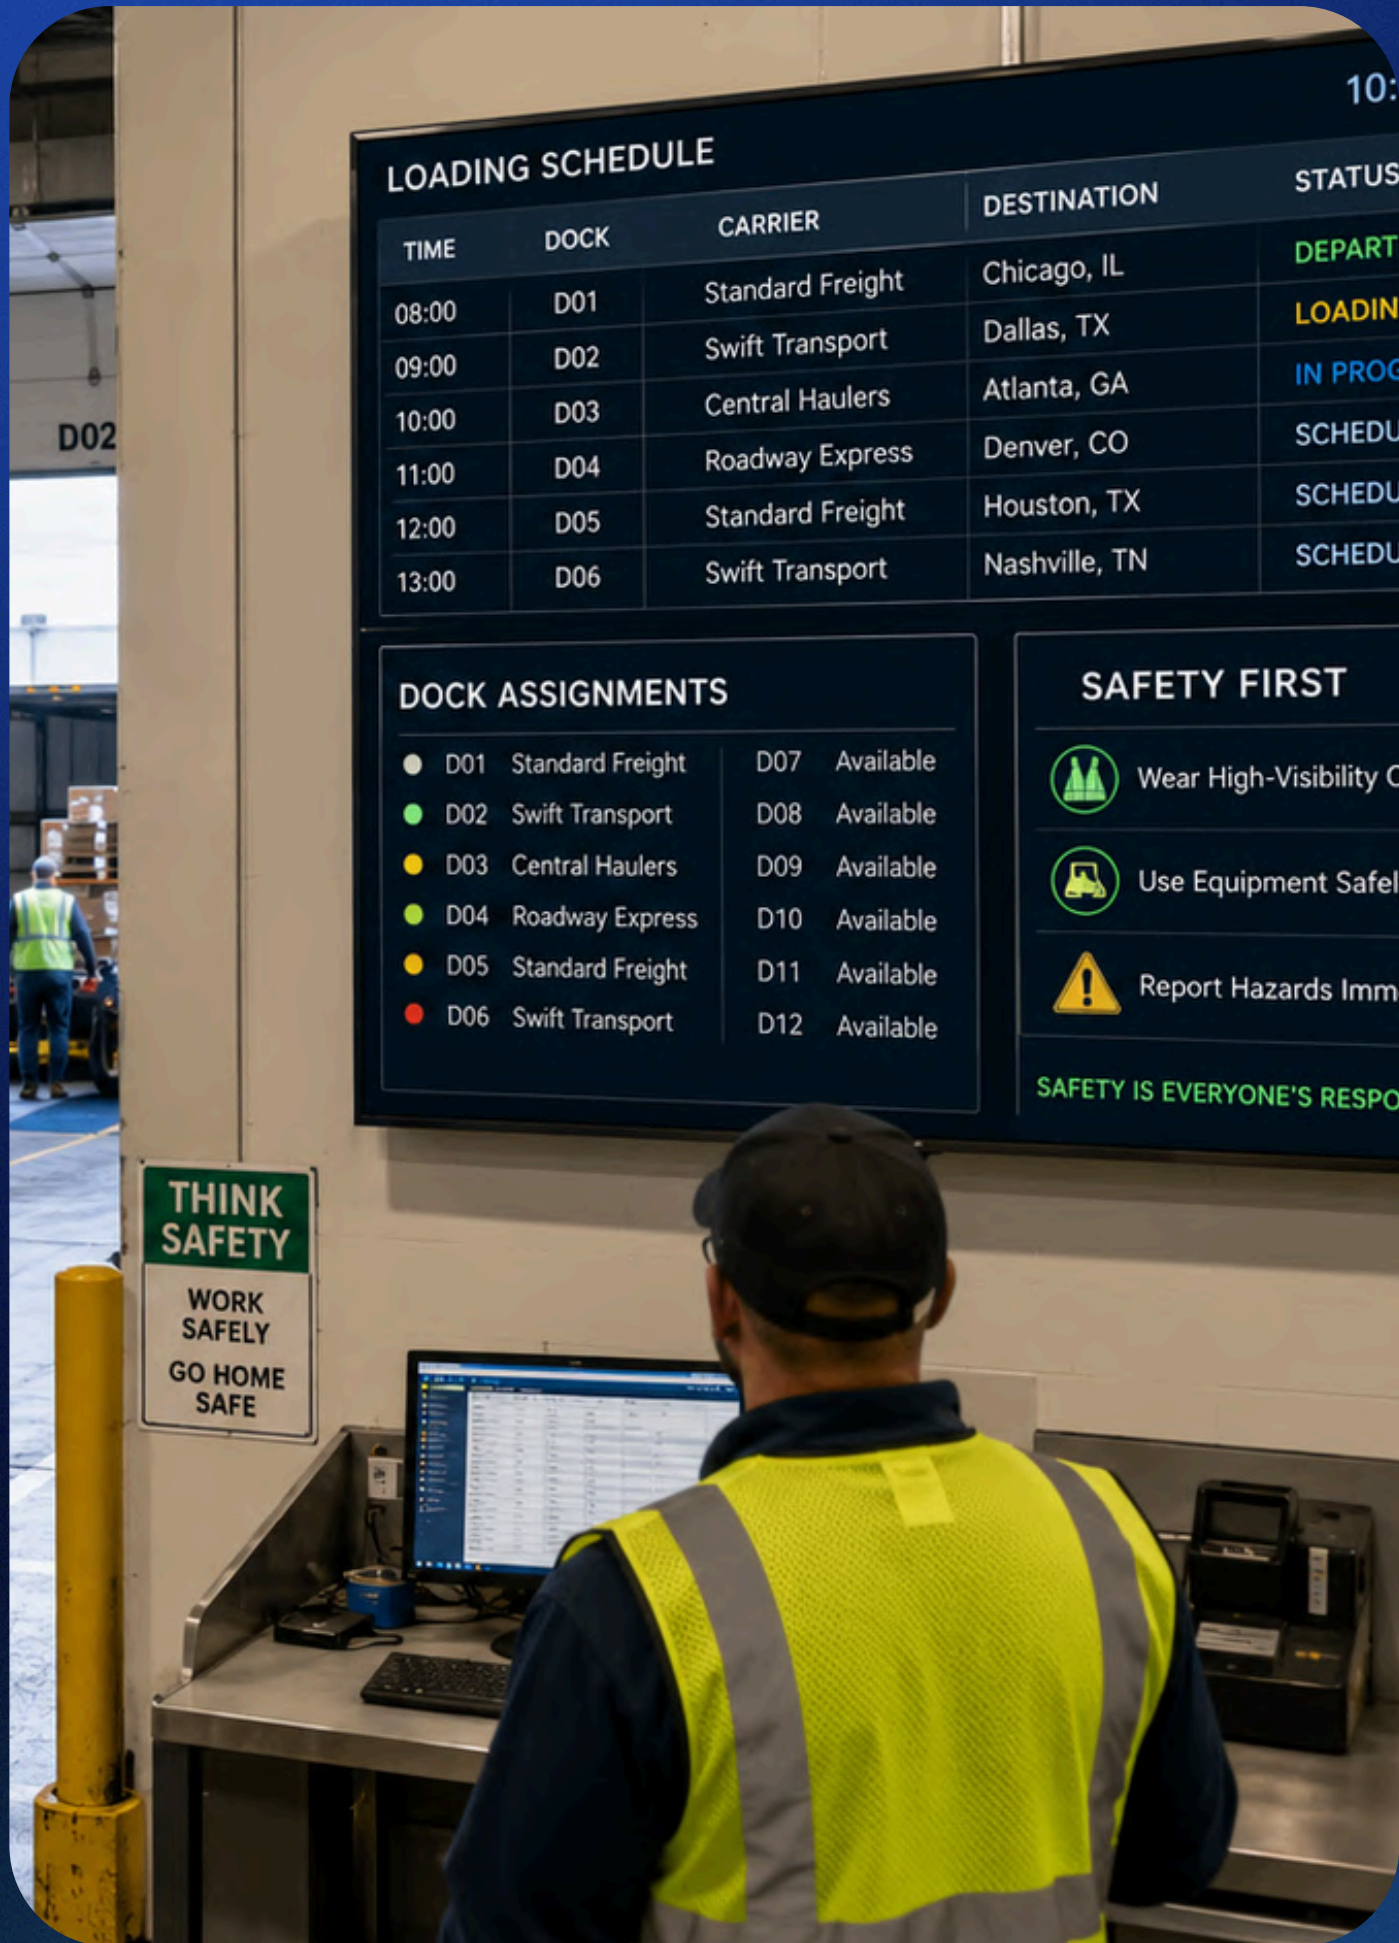

# Entertainment

- Display event schedules, showtimes, programs, and visitor information.
- Guide guests through venues, entrances, seating areas, and service points.
- Promote upcoming shows, campaigns, offers, and partner content.
- Support ticketing areas with clear information and queue guidance.
- Use dynamic visuals and video walls to create atmosphere.
- Update content quickly for different events, audiences, and locations.

# Trade & Industry

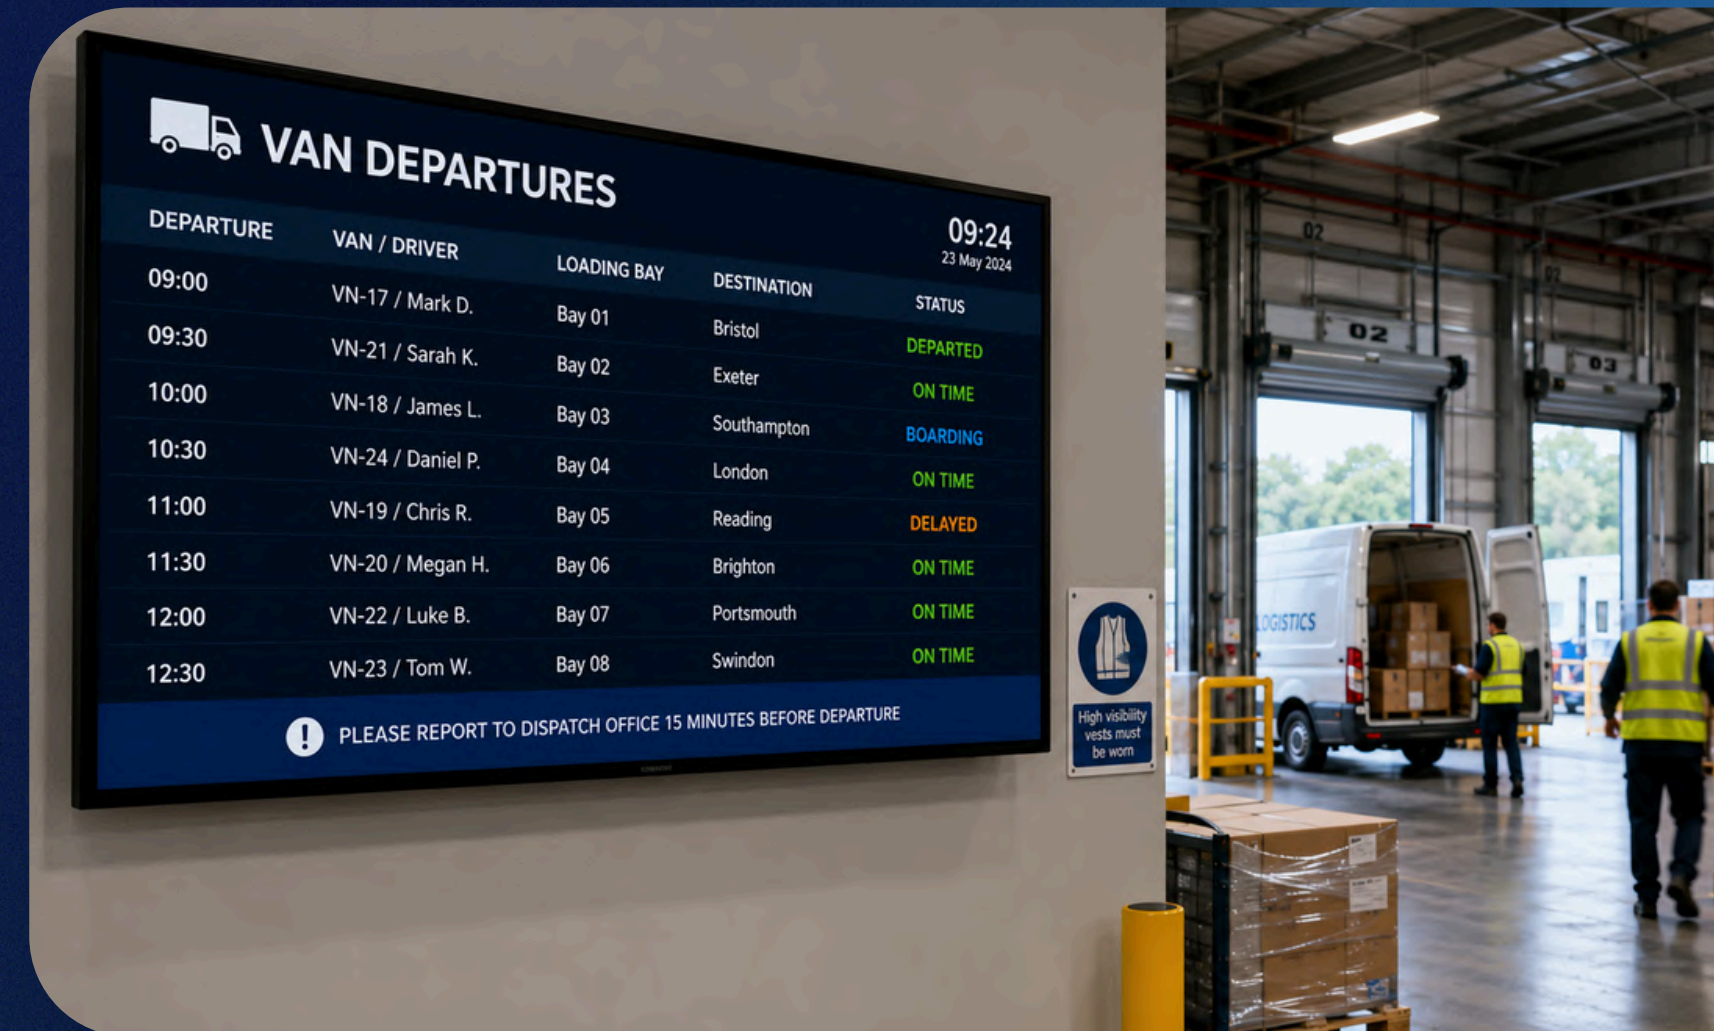

Improving operational communication, safety awareness, and productivity across industrial sites.

# Trade & Industry

- Display production KPIs, shift plans, safety information, and operational updates.
- Improve communication between management, workers, and production teams.
- Share real-time alerts, maintenance messages, and quality information.
- Use screens in factories, warehouses, logistics centers, and staff areas.
- Support efficient communication across multiple sites and production zones.

# Public Institutions

Delivering clear public information and visitor guidance in government and civic spaces.

# Public Institutions

- Inform citizens clearly in government buildings and public service areas.
- Display queue information, service instructions, opening hours, and announcements.
- Guide visitors through complex public buildings with digital wayfinding.
- Share emergency messages and public information quickly and reliably.
- Manage multilingual content for different audiences and locations.

# Transportation

Providing passengers with real-time travel information, wayfinding, and service updates.

# Transportation

- Display real-time travel information, departures, arrivals, delays, and service alerts.
- Guide passengers through stations, platforms, terminals, stops, and transit hubs.
- Share safety messages, disruption updates, and emergency communication.
- Use digital screens for passenger information, route guidance, and local advertising.
- Manage content centrally across stations, stops, vehicles, and transport networks.

# Airport

- Show live departures, arrivals, updates, and delays.
- Guide passengers to gates, baggage claim, lounges, and exits.
- Display security wait times and lane information.
- Share gate changes and service alerts.
- Promote shops, restaurants, lounges, and duty-free offers.
- Support food courts with menus, offers, and queue guidance.
- Communicate safety messages and travel rules.

# Religious Institutions

Supporting respectful community communication through clear schedules, guidance, and announcements.

# Religious Institutions

- Display prayer times, service schedules, community announcements, and events.
- Guide visitors during large gatherings, ceremonies, and special occasions.
- Share important messages respectfully and clearly in public areas.
- Support multilingual communication for diverse communities.
- Manage screens easily in religious buildings, community centers, and event spaces.

# What Connects All Verticals?

Different industries, same core value.

Centralized content management.

Local flexibility for specific  
locations and teams.

Integration with third-party  
systems and data sources.

Better experiences for customers,  
employees, and visitors.

Reliable communication across  
many screens and environments.
