

CORPORATE TV & BROADCAST

Provide information regardless of location - corporate communication made easy!

Digital Signage is an excellent way to quickly inform employees - whether in the office or remotely. Thanks to an HTML5 browser integration, the easescreen Broadcast is platform and operating system independent. This makes it suitable for all browser-capable devices: displays, PCs, tablets, and smartphones!

RANGE OF USE

- Corporate communication
- Employee communication
- Room booking
- In-store communication

SOLUTION OVERVIEW

- In the office: Content is presented on Digital Signage screens at so-called „hotspots“, such as the reception, cafeteria, meeting rooms, etc.
- For external employees: the content reaches every employee via a web URL
- Interactivity: free navigation through the content
- Delivery of the respective HTML5 broadcast channel via the customer network
