

READY FOR DIGITAL SIGNAGE

Kramer VIA is the all-in-one AVoIP solution for wireless presentation and collaboration, offering 4k video streaming and complete BYOM connectivity. Combined with the versatility of eascreen, the leading digital signage software, the possibilities of using screens are endless.

THE COMBINATION MAKES THE DIFFERENCE

- Powerful & multifunctional all-in-one solution: presentation, collaboration & digital signage
- Alerting, operation, and information: screensaver for digital signage applications
- Kramer VIA is natively compatible with eascreen
- Easy integration into existing networks and comprehensive hardware compatibility
- Uninterrupted 4K HD video streaming

- Maximum flexibility: on-prem or cloud hosting (minimum installation effort).
- Advantageous USP: immense added value through the software extension of a popular hardware.
- Meaningful added value: an enriched user experience that will be remembered!
