

eSIGN

Digital Room Signage

easescreen eSign is an innovative room booking and resource management solution. eSign Doorsigns support in combination with an eSign Server the two-way synchronization and automatic import of booking information (Microsoft Exchange/ Outlook, Google Calendar etc.) and are compatible with all common database types and booking systems via CSV or XML.

On-Site	Online & On-Site	Make it personal
<ul style="list-style-type: none"> • Calendar view • Check-In • Early meeting end • Spontaneous bookings 	<ul style="list-style-type: none"> • Room search • Extended meeting rooms • Resource management • Support 	<ul style="list-style-type: none"> • Corporate Design • Reporting • Confidential mode
<p>Rooms can be booked on the display if no existing booking is displayed. Room usage can be confirmed via check-in and ended early with the early end function.</p>	<p>eSign offers detailed support, extensive room search, resource management, and simultaneous bookings of dividable meeting rooms, both on-site and online!</p>	<p>You can easily customize the layout to match your corporate design, hide sensitive meeting information with just one click, and receive detailed usage statistics.</p>
