easescreen Showcases Innovations and Highlights at ISE 2025

Once again, easescreen is set to impress at ISE 2025 with groundbreaking innovations that will revolutionize the digital signage industry.

A must-see highlight is the "UI Island", where we will showcase our Screenmanager and Webinterface—an intuitive platform for layout and program planning. Experience firsthand how design and functionality come together to deliver outstanding results.

Webinterface: Enhanced User Experience
The Webinterface has been optimized in several ways:

- Auto-Login: Simplified access and personalized welcome messages.
- New Languages: Now available in Hungarian, Portuguese, Romanian, and Spanish.

X2406 & X2409: The Latest Features at a Glance
With the latest versions of X2406 and X2409, we are setting new standards in usability and functionality.

- Accessibility: The X2409 interface complies with WCAG 2.1 accessibility standards.
- Soft-Delete: Marked content remains visible before final deletion.
- Onboarding Assistant: Simplified setup and optimized font management.
- Security & Compatibility: Enhanced protection against DoS attacks and support for SSL/TLS-compliant clients. Compatibility with new hardware, including IIYAMA and HIKVISION.
- eSign Room Booking: Improved Exchange integration for faster synchronization and a more responsive interface.

Visit Us at ISE Booth 3H200!
We are excited to share our booth with our partner Syscomtec once again this year.

Join us at ISE to explore the latest features and developments. Together with our Marketplace partners—Adtrac, Giada, KWS, and 3D-Berlin—we look forward to engaging discussions and insights. Additionally, don't miss our eye-catching installations from Ledeca, featuring creative shapes and unique content that are sure to turn heads.
